SUNDAR RAM R

AI / ML Engineer · Manufacturing AI · Data Scientist · Data Analyst

+91 77082 22597 | sundarpro.csrm@gmail.com | Chennai, India | linkedin.com/in/sundarr404 | My website: sundarram404.github.io/My-website

HIGHLIGHTS

- Received a **Letter of Appreciation from the Chief People Officer** of DMW CNC Solutions for conceptualising, developing and deploying five enterprise applications in a two-month internship.
- Delivered **8 internal applications for DMW in 2026** — five during the internship and three more afterwards, alongside college.
- Oracle certified, 2026: **Agentic AI Foundations Associate** (1Z0-1157) and **OCI AI Foundations Associate** (1Z0-1122).
- **Japanese:** currently studying the language at Yoisho Academy, Chennai, alongside final-year studies.

EXPERIENCE

DMW CNC Solutions India Pvt Ltd
Jun 2026 – Jul 2026

AI, Digital Transformation & Systems Intern, Systems Department — *Tamil Nadu, India*

- Built and deployed **5 production systems** in two months (QMS audit system, KPI dashboard, P&L dashboard, NC analysis, Motor Intelligence Portal) for a precision manufacturer with **8 plants and 13 departments**; prototyped in Python, then rebuilt in Laravel and MySQL on the company's own server.
- Built an offline KPI dashboard that consolidates plant-wise and department-wise KPI workbooks in one upload, with no BI licence or internet needed on plant-floor machines; reused the engine for NC analysis with automatic red flags.
- Ran a 70B-parameter LLM on-premise (Ollama) with RAG over audit records and machine manuals, turning a manual search through branch and machine folders for a part document into a plain-English query answered in seconds.
- Gathered requirements from plant, quality, finance and HR teams and refined each system through user feedback before rollout.
- **After the internship (Aug – Nov 2026):** kept building for DMW alongside college — Sales Analytics, Revenue Pulse and HireLine.

Flex
9 Jun – 9 Aug 2025

AI Automation Intern, Automation Team — *Chennai, India*

- Built AI document tools at the world's third-largest electronics manufacturing services company: a signature-extraction pipeline (OpenCV, Tesseract, CLIP) that separates signatures from logos and stamps, and a PDF parser for LLM Q&A.
- Built StudyFlow-AI, a learning assistant that turns uploaded PDFs into multi-level summaries, Q&A, flashcards, quizzes and translations; improved pipeline reliability and latency with the core engineering team.

KEY PROJECTS

QMS Internal Audit Management System
2026

Laravel, MySQL · built for DMW CNC Solutions

- Runs internal audits across 8 plants and 13 departments: role-based logins, auditor assignment, reminders before each audit and **147 pre-loaded clause checklists**.
- Tracks every finding and NC to closure, with management-review dashboards.

DMW Revenue Pulse
2026

Python, Pandas, Laravel, Chart.js

- Python pipeline that cleans and reconciles five years of revenue data (**112,000+ ERP invoice lines**); every value traces back to its source cell.
- Dashboard for target-vs-actual, customer, part and plant analysis with risk flags; reviewed with the CFO and finance team and now in use.

HireLine
2026

PHP, MySQL, Ollama (local LLM)

- Recruitment system for DMW from vacancy approval to joining: resume parsing, weighted screening, interviews, offers and a full audit trail.
- Screening runs on a **local LLM on the company server**, so candidate data never leaves DMW; now in use by HR.

Document Analyzer
2025

Tesseract, PyMuPDF, OpenCV, CLIP, LLaVA, LLaMA

- OCR, vision and LLM pipeline that turns scanned documents into structured, queryable chunks, isolating signatures, tables and diagrams.
- RAG question answering with LLaVA and LLaMA that reads values such as part dimensions directly from engineering drawings.

Other projects: DMW Sales Analytics (25 sales report matrices) · Supply IQ (demand forecasting, anomaly detection) · Attention Sense AI · Resume Flow AI — on my website

EDUCATION

Sai University
B.Tech, Computing and Data Science
Chennai, India · **2023 – 2027**

Maharishi International School
Higher Secondary — Maths, Physics, Chemistry, Computer Science

TECHNICAL SKILLS

Languages: Python, PHP, SQL, JavaScript, C, C++

AI / ML: Machine Learning, Deep Learning, Computer Vision, LLMs, RAG, Embeddings, AI Agents

Libraries: OpenCV, MediaPipe, LLaMA, LLaVA, CLIP, Pandas, NumPy, Plotly

Tools: Laravel, MySQL, FastAPI, Next.js, Gradio, Ollama, HuggingFace, Docker, Git

Quality & Manufacturing: audit and NCR management systems, KPI analytics, anomaly detection, on-premise data-private AI

IoT: UART, SPI, I2C, MQTT, CoAP, BLE, LoRaWAN

Spoken: English (fluent), Tamil (native), Japanese (currently studying)

CERTIFICATIONS & AWARDS

- Oracle Agentic AI Foundations Associate, 2026
- Oracle Cloud Infrastructure AI Foundations Associate, 2026
- NPTEL — Industry 4.0 and Industrial IoT
- NPTEL — Human Computer Interaction
- Indian National Olympiad qualifier
