SUNDAR RAM R

AI / ML Engineer · Data Scientist · Data Analyst

+91 77082 22597 | sundarpro.csrm@gmail.com | Chennai, India

HIGHLIGHTS

- Received a **Letter of Appreciation from the Chief People Officer** of DMW CNC Solutions for conceptualising, developing and deploying five enterprise applications in a two-month internship.
- **Oracle Cloud Infrastructure AI Foundations Associate** (Exam 1Z0-1122), Oracle, 2026.
- Automated manual work equivalent to **~23 roles** across two internships, an estimated **INR 1.8 crore per year** in avoided cost.
- Shipped **5 production systems** and automated **120+ KPIs across 8+ plants**, cutting audit effort by **70%** and reporting effort by **90%**.

EXPERIENCE

DMW CNC Solutions India Pvt Ltd

Jun 2026 – Jul 2026

AI, Digital Transformation & Systems Intern, Systems Department — *Tamil Nadu, India*

- Built and deployed **5 production systems** in two months (QMS competency module, KPI dashboard, P&L dashboard, NC analysis, Motor Intelligence Portal), used daily by plant, quality, finance and HR teams across a 500+ employee, 6-plant manufacturer.
- Developed an Internal Audit Management System covering IATF 16949, ISO, EHS and AS standards, reducing audit administration effort by **70%** and management review report preparation from **2 days to 15 minutes**.
- Deployed a 70B-parameter LLM on-premise (Ollama) with a RAG knowledge layer over audit records, NCR history and machine manuals, reducing document retrieval time from **20 minutes to seconds**.
- Automated **120+ KPIs across 8+ plants** and a six-year P&L dashboard, cutting manual reporting effort by **90%**.
- Replaced manual audit, analysis and reporting work equivalent to **~13 roles**, an estimated **INR 80 lakh per year**.

Flex

Jun 2025 – Jul 2025

AI Automation Intern — *India*

- Built internal AI automation tools for document processing at the world's third-largest electronics manufacturing services company.
- Engineered a single OCR → computer vision → LLM pipeline using OpenCV, CLIP, PyMuPDF and Tesseract, replacing several disconnected manual steps.
- Improved pipeline reliability and latency with the core engineering team; replaced manual document reading and data entry equivalent to **~10 roles**, an estimated **INR 1 crore per year**.

EDUCATION

Sai University

B.Tech, Computing and Data Science

Chennai, India · **2022 – 2026**

Maharishi International School

Higher Secondary — Maths, Physics, Chemistry, Computer Science

Chennai, India

TECHNICAL SKILLS

Languages: Python, C, C++, SQL, JavaScript

AI / ML: Machine Learning, Deep Learning, Computer Vision, LLMs, RAG, Embeddings, AI Agents

Libraries: OpenCV, MediaPipe, LLaMA, LLaVA, CLIP, Pandas, NumPy, Plotly

Tools: FastAPI, Next.js, Gradio, Ollama, HuggingFace, Docker, Git

PROJECTS

Internal Audit Management System | *Python, Ollama 70B, RAG, KPI Analytics* 2026

- Automated the full audit lifecycle — planning, checklists, NCR management, corrective actions and review reports — for auditors across six plants.
- Built an analytics dashboard over three years of audit history tracking NC trends, adherence, repeat NCs and closure effectiveness.
- Integrated an on-premise 70B LLM with RAG so auditors can query audit data, compliance clauses and machine manuals in plain English.

DMW Enterprise Systems Suite | *Python, Pandas, Plotly* 2026

- Built QMS, KPI, P&L, NC analysis and Motor Intelligence modules covering six fiscal years of financial data and 6,000+ activity records.
- Replaced manual Excel reporting with 3,000+ automated visualisations, enabling same-day decisions across 8+ plants.
- Designed plant-wise and department-wise benchmarking for absenteeism, target achievement, profitability and productivity.

Document Analyzer | *Tesseract, PyMuPDF, OpenCV, CLIP, LLaVA, LLaMA* 2025

- Built a multi-stage OCR, vision and LLM pipeline that extracts documents into structured, queryable chunks.
- Isolated signatures, tables and diagrams with OpenCV and CLIP for downstream processing.
- Implemented RAG question answering with LLaVA and LLaMA that reads values such as part dimensions directly from engineering drawings.

Supply IQ | *FastAPI, Next.js, Prophet, Isolation Forest, LLaMA 3.3 70B* 2025

- Full-stack supply chain platform with 30-day demand forecasting and anomaly-based supply risk scoring.
- Indexed supplier contracts with TF-IDF retrieval to answer custom business queries.
- Built an LLM decision engine combining forecast, anomaly and contract data into executive-level reports; deployed on Render.

Resume Flow AI | *Python, LLM APIs* 2025

- Parses resumes with an LLM to extract skills, experience, projects and gaps.
- Scores job-description fit out of ten with skill-gap analysis and generates personalised interview questions, ranking candidates in batch.

Attention Sense AI | *MediaPipe, OpenCV, Gemini, Groq, Gradio* 2025

- Tracks eye position, head pose, blink rate and distraction states in real time using MediaPipe Face Mesh.
- Fuses these signals into a live focus score, with an LLM layer generating contextual alerts and attention reports.

CERTIFICATIONS & AWARDS

- Oracle Cloud Infrastructure AI Foundations Associate (1Z0-1122), 2026
- NPTEL — Human Computer Interaction, Grade O
- NPTEL — Introduction to Industry 4.0 and Industrial IoT (in progress)
- Indian National Olympiad qualifier
